Hayley,

Combining the reports seems to have worked well (see attached). I agree with your comments and added my thoughts to one of them. I think the more substantive comments remain:

- 1) The handling of the post meeting objection to the idea of a single IUR
- 2) The couple instances of policy/political language

If okay, I'll forward the combined file to Diana and note the above 2 points in the email.

Thanks.

Steve

Hi Steve,  
I completed my review of the report, renamed it to avoid confusion.

Please let me know what, if anything, you need from me to get this across the finish line!

I think I need a box of ice cream sandwiches! 😊

Thanks,  
Hayley

Hayley,

I completed my review of the asbestos report yesterday evening. Overall, the report looks very good. Most of my comments and suggestions are minor editorial points. However there were a couple more substantive issues.

## Ex. 5 Deliberative Process (DP)

I've attached my mark-up FYI. When you have completed your review, I can try to combine the files to send a single mark-up to Diana.

Please let me know if you would like to discuss.

Thanks.

Steve
